

alle bleiben!

www.alle-bleiben.info Right to stay for Roma in Germany

all stay!

Abolish discriminatory laws against refugees!

Residence requirement in isolation camps, forced poverty due to exclusion from the labor market, voucher systems and deportation are parts of the life of refugees, who have sought refuge here in Germany.

It is important that the refugees themselves in Germany and throughout Europe defend themselves against this practice! We cannot allow that people, whether strangers, neighbors or members of your own family, are deported to a country in which they face racism, corruption, poverty and violence.

Deportations increased since the readmission agreement between Kosovo and Germany and some Roma have been living for up to 20 years in Germany. As a discriminated minority, they are almost defenseless and particularly in danger.
